THURSDAY, DEC. 28 1876.

The State Legislature will meet on Monday next.

"The people who can elect a President, can inaugurate him." — ABRAHAM LINCOLN.

SENATOR BUCKLEY declares that the returning board's declared fraudulent, but believes that justice will yet prevail.

The Supreme Court of Florida has ordered a re-canvass, which will give the State to Tilden and the Democratic State ticket.

THE Attorney General of Pennsylvania deems that members of the Legislature can only receive \$1,000 per session, no matter how long it may be.

The counter does not seem to be ready to admit that the President of the Senate can be judge, jury, and executioner of the Presidential vote.

It is not yet that the Republicans should put Gen. Butler down as a rebel and builder since the ratification of his letter on the Florida budget.

It is proving a hard job to count in a President not elected before the critical election of the whole country. Things look better, but the others are desperate, and will fight to the end.

BETWEEN now and the day of the counting by Congress of the electoral votes, the whole subject of the Southern election will be made so clear that even Zach Chandler will be likely to doubt about the success of his scheme.

A FRIEND has advised his drunkest servant to put by his money for a rainy day. In a few weeks his master inquiries how much of his wages he had saved, "Fath, none of all," said he; "it failed yesterday, and it all went."

ONE PARTY GAINED.—The Radical leaders in the South are no longer disposed to insist upon the right which has been claimed for it to hold, through its existing office, the electoral vote. Butwell and Morton have both yielded that point. So much gained for Tilden?

THE New York *World* is of the opinion that there are many sound lawyers and publicists in England and in this country on the side of Governor Gove, of Oregon, as on the side of those who claim that only two electors were chosen in that state.

Two plenarians were recently started near the home of Mr. Atkinson, in Bucks' county, one of which went straight to the house, going in through a pane of glass, of the second-story back window and out through a pane in the window opposite, falling dead on the plantation.

TATE N. Y., *Herold* concludes that "if such men as Conkling, Sherman, Edwards, Frelinghuysen, Davis, Anthony and Barside permit the policy of the Republican party to be controlled by the Chandlers, Cabams, Legans and Chamberlains, the result cannot be different with us, than what it was when Fance was given up to Manton and Robespierre."

WE have several rumors from Washington that there are no compromises on foot to settle the disputed Presidency. Of course any settlement that recognizes the will of the people and an honest count of the votes "nearly east" will be entirely satisfactory to the country and give it peace. But nothing short of this will do it.

FORMERLY IT was but one State in the Union in which American citizens were lawfully permitted, at the recent election, from going to the polls to vote. We mean Rhode Island, in which no foreign-born citizen could vote unless he owned real estate. Rhode Island is Republican, and went for Hayes. But for its real estate qualification, it would probably have gone for Tilden.

THE legend between old, forger, fraud and injury which the Congressional Committees in Louisiana, South Carolina, and Florida have already discovered leave no doubt that when they have completed their work the full details of the most criminal conspiracy this country has ever known will spread before the people in such a shape as to carry clear conviction to all.

EX CONGRESSMAN WILLARD, of Vermont, is a pretty good Republican, but he cannot sit quietly by and let the assumptions of his party. He says plainly that if the President of the Senate attempts to decide what electoral votes to count and what not to count, he is "a usurper." The opinion is gathering among Republicans that this business of usurpation has gone far enough.

EDWARD A. CRONIN, the Democratic elector of Oregon, is a native of Greenwich, Washington county, N. Y., and is thirty-five years old. He went to Oregon in 1855, where he has been prominent in politics for several years, always on the Democratic side. He is considered an able liver and a gentleman of tried personal integrity. It is not probable that his action as an elector will be denied, and still less a thorough examination of the legal points involved.

WHILE the House at its last session cut down the Democratic and Conservative Appropriation bill, there was much anxiety at the thought that would be doing our commercial interests. We have seen none, and there has been no committee on the appropriation for the same purpose, at this session, reduce the sum still further. No valuable interest will suffer by reason of the cutting down of Don, Hamilton, Plumb's constituents, as the people will find by experience. There is a great deal of influence about this foreign representation business. — N. Y. Sun.

By the time the committees of Congress have finished their investigations in Louisiana, South Carolina and Florida, the frauds that have been committed in the states will be present to the American people in so revolting a light that they will die of shame.

RASCALITY will not win with the people. The recent Democratic victories in Boston and Worcester furnished "straws" of a very significant character, and now we have a few more—as witness:

THE X. Y. *Herold* Tallahassee dispatch says: "The Democrats carried the city election here yesterday for the first time in the war."

The Democratic candidate was elected mayor of Waterbury, N. Y., on Thursday by 80 majority. Last month the Republicans carried the city by 17 majority.

Gov. Hespeckles details the absurdity about the political parties. And another of a sound political party holds up to public shame. It exists only in the minds of those who think they can succeed with their desperate plot by exciting the fears of the public. Their opponents are not working in secret. They are the whole body of the oligarchy and honest men of the country, who have nothing to hide, and who demand that full light shall be thrown on the manner of the electoral count. All they ask is that the President actually elected shall be placed in the White House next March.

STERLING APPEAL.

A LETTER from Washington to the editor of the *Compilers* says: "The more intelligent Republicans here, both in and out of office, have felt from the first that they had no cause, and those who have allowed themselves to hope are now much depressed by the results of investigations in the three disputed states, and especially by the statement of Gen. Barlow that the Returning Board should have declared the state of Florida for Tilden. Gen. Barlow was formerly Attorney General of the State of New York, and is by far the most prominent Republican who went to Florida to see the result. It will be remembered that he was counsel for the returning board, and such a verdict from an independent Republican has had a very marked influence upon the individual Republicans, and, is, of course, encouraging to the other holders. The impression is now prevalent among both Republicans and Democrats that the election of Tilden will be conceded by the more able and respectable Republicans, and opposed only by Morton, Boutwell, Patterson, and their carpet-bag satellites Spencer, West, Clayton, and a few others, but not by a majority.

AN APPEAL.—The New York *Suns* makes a forcible appeal to Republicans, in which it says: "The infamous frauds by which it is proposed to count Hayes into the Presidency are defended on the ground that they are necessary to avoid the alleged intimidation of the negro vote. An assumed crime is charged by heated partisans against their political opponents, a daring and positive course is to boldly commit it in open view. This is the standard of Republi-

cans, and those who are engaged in the project, like Hayes, are to be held responsible for it."

Gen. Butler had a regular, impromptu party on Monday evening, a gay party in the study of his residence, with a number of his friends, and a few others, and a good time was had by all.

We adduce you in that spirit of patriotism which is common to all the citizens of this country, that the condition of our country is fraught with impending peril. The expression by the people of their intention to support the negro vote, which will settle the issue, may prevent otherwise wise delay. The spirit of the constitution, however, and our duty to our government, there is no question or a measure relating to the peace and happiness of the nation which is not to the entire satisfaction of all the people.

FARM AND HOUSE.
THE IMPORTANCE OF EDUCATING BOYS.

Notwithstanding much has been said and written on the subject of breaking colts and handling vicious horses, and such men as Harey, Williams, Mague, and others have been all over the country, and demonstrated to all the superiority of science and skill in handling horses over the old method of pounding and whipping them—still there are a great many who yet stick to the old custom of forcing them into submission by kicks and blows, and who think that all that is necessary to enable a man to break a colt well is to have plenty of courage, strength and a loud voice; and when they commence to break a colt hit him up and try to drive him before he is accustomed to the feeling of the harness or knows anything about the use of the bit or rein; and if he does not move right off before he has been taught to go he is whipped; if he does not mind the rein the lash is laid on; if he stands on rough ground he is "whinded;" if he walks too soon when told to whom he is kicked, and if he resents this cruel treatment the above is repeated. The consequence of such improper management is frequently some kind of a cancer, in which the colt is taught his first lesson in kicking or biting, and so, not being taught, he never learns anything more, only what he learns from ordinary driving. Now, although almost any man can break a colt after a fashion, there are but few competent to educate a colt as should be. A man to successfully ride and educate horses and colts, and in the first place be a natural orseman, and be possessed of that peculiar knock without which no one can be a first-class rider. In the second place, he should have an unlimited stock of patience, and be able to control himself on all occasions; for a man that cannot control himself cannot control a horse. Besides, a man should be posted in his business, and be familiar with all the different systems of horse training as by the most successful horse trainers. He should also be a man possessed of a kind heart, capable of sympathy in the animal he is to ride.

There was in every town a man whose requisites, and he should be all of the colts raised in his town, useful qualities of the horses of the city would be greatly increased, and would not be so many accidents in cases of broken ribs and bruised legs, caused by horses running or kicking.

I hope the day will soon come when every one shall realize the importance of a more thorough system of training horses, and when schools be established all over the land for educating competent men to educate and handle horses; when such horses require a strong man to drive, control them, shall be rendered docile, and be driven with ease and pleasure, even without bit or bridle.

Instead of being over-beaten and beaten to a maim, horses of gambling and

cheating by others, he shall, by proper care and attention, together with judicious breeding, and especially by a thorough education, be made one of the greatest blessings ever given to the Creator for the benefit of man.—A. T. Myrin, in *Almanac*.

HEREFORD CATTLE.—For a few years past, the Herefords have been making progress of the West, and during the fair season just closed have won many honors in competition with the Shorthorn—taking, in Illinois, the sweepstakes and herd premiums; in Michigan, the herd premium, in competition with several of the leading Short-Horn herds in Ohio, taking the herd premiums, and at the Central, making one of the best shows of any herd on the grounds, though not brought in competition with other breeds except in the Canada stock.

On the plains of Colorado, Texas and other of the large grazing districts of the great West, they are rapidly gaining favor, and will soon be the leading breed. As grazing cattle, they have no competitors, and retain their quality and stamp on them to a remarkable degree. Among a lot of steers brought from Colorado a few days since was one Hereford grade, the rest being Shorthorn grades and natives, and it had been grazed together. The Hereford grade was taken out and sold at \$400, while the rest of the lot sold for \$200.

THE time is now at hand when the Herefords are about to assume the leading position in the country, and the movement, I am sure, is now in full force, supporting their consumption, and driving them to market. I can assure you, I invite the whole public to make an inspection of our goods, and order prompt & attended.

ANOTHER HOPELESS CASE
CURED BY DR. SWAYNE'S
COMPOUND SYRUP OF WILD CUMBERBAND.

ADAMSON, Farmer, Co., Pa., Dr. SWAYNE's Son, Gentleman, a short time ago, was suffering from the most fatal attack of the colic, and died before my hands could reach him. I was induced by Dr. F. H. Miller, a well known physician, and who can verify those facts, to write to Dr. SWAYNE, Wild Cumberband, and to give him the details of the disease, and the treatment, and the results of the same.

Dr. SWAYNE, Wild Cumberband, has written me, and says, "I have never had a case of colic equal to this, and I have never seen any case of colic equal to this."

Dr. SWAYNE, Wild Cumberband, has written me, and says, "I have never had a case of colic equal to this."
